EDUCATION

University Of Kalyani

Bachelor of Technology in Information Technology

India

Sep. 2024 – Mar 2028

EXPERIENCE

Software Engineering Intern

June 2026– Current

Reasoned Trading

USA

- Collaborated on the end-to-end development of a modern trading startup platform, building a sleek, responsive user interface with React/TypeScript and a robust, low-latency microservices backend with Go.
- Implemented Backend With Go and PostgreSQL

Frontend Engineer Intern

June 2025 – Aug. 2025

Yovarc

Remote

- Built full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Developed responsive user interfaces with React and styled components, integrating RESTful APIs.
- Supported backend development by designing schema models and handling CRUD operations.

PROJECTS

Backend API System | Express.js, Node.js, React, REST APIs

June 2025

- Developed a full-stack web application with a scalable RESTful API and React-based frontend.
- Implemented GitHub OAuth authentication to securely fetch and analyze user repository data.
- Designed interactive dashboards to visualize repository insights and collaboration patterns.
- Integrated asynchronous task processing using Celery and Redis to improve performance.

AI Chatbot (Gemini Bot) | Python, FastAPI, Streamlit

Jan 2026

- Built an AI-powered chatbot leveraging Gemini API with FastAPI backend architecture.
- Designed an interactive UI using Streamlit for seamless user engagement.
- Enabled real-time communication between frontend and backend for low-latency responses.
- Optimized deployment pipeline for scalability and reliability.

Vernacular AI Platform | React, TypeScript, Vite, Shadcn UI | Live Demo

Jan 2026

- Developed a multilingual AI web application deployed on Vercel for global accessibility.
- Built a conversational interface using React, Radix UI, and Shadcn components.
- Integrated Google Generative AI API for natural language understanding and responses.
- Improved UX with Tailwind CSS, Zustand state management, and responsive design.

TECHNICAL SKILLS

Languages: Python, Golang, JavaScript, TypeScript, C, SQL (PostgreSQL)

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, FastAPI

Tools & Technologies: Git, GitHub, REST APIs, Vercel, Jira, MS Word, VS Code

Concepts: Full-Stack Development, API Design, Authentication (OAuth), Asynchronous Processing

Cloud & DevOps: Docker, Kubernetes, AWS, Terraform

CERTIFICATIONS

- OCI DevOps Professional Certification (1Z0-1109-25, 2025)
- Product Management Certification (2025)
- Product-Led Growth Certification (2025)
- Business Analyst Foundation Certification (2025)
- MySQL Database Administrator (2025)
